Director  
Intelligence Community Staff

14 May 1982

NOTE FOR: Director of Central Intelligence  
SUBJECT: Satellite Status Report

This is the satellite status report you requested yesterday during our biweekly update session. Please let me know if this fills the bill.

The new budget system we are introducing this year will produce reports on the status of major initiatives every six months. This may provide an opportunity for you to monitor how major development projects are doing in terms of performance, schedule, and cost.
